1. Page 9, section 10: Special Terms. This will not be a licensed vehicle, nor for highway use.

***KCTCS Response: This vehicle will not be a licensed or titled highway vehicle and is not intended for on-road operation. The unit will be used exclusively for instructional and training purposes within controlled environments designated by the college. It will not be driven on public roadways, highways, or main thoroughfares, and therefore will not require state vehicle registration, titling, or licensing.***

***The vehicle must be capable of low-speed operation suitable for instructional use, including maneuvering within training areas, parking lots, or similar non-public spaces. While operable and drivable, the unit is considered non-roadworthy for legal, regulatory, and safety standards associated with street-legal vehicles.
